Re: Amendment to Standard Construction Specifications

Please note the amendment regarding flowable fill inserted at the beginning of the Earthwork and Trenching section of the City of Manhattan's Standard Construction Specifications. This amendment defines other means of backfilling trenches that will be recognized as acceptable to the City of Manhattan.

Sincerely,

Scott Crain, P.E.,
City Engineer

To Whom It May Concern:

Re: Amendment to the Standard Specifications

Please note the amendment nos. 1-5 regarding sanitary sewer, streets and parking lots, water measurement and payments and earthwork and trenching have been inserted in the sections to which they pertained. These amendments will be recognized as acceptable to the City of Manhattan.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey Hancock".

Jeffrey Hancock
Acting City Engineer

Re: Approved American AVK Hydrants & Valves

Dear Sirs,

City Administration has completed a substantial review of the American AVK fire hydrants and gate valves for a check of equivalency as compared to the standard Mueller hydrants and gate valves currently used on City projects. Please replace the appropriate sections of the Manhattan Standard Construction Specifications with the attached amendment. This amendment and its application on City of Manhattan projects should only apply to those projects, which have not yet bid.

If you have any questions or comments, please do not hesitate to contact me at 785-587-2415.

Sincerely,

A handwritten signature in cursive script that reads "Jeff Hancock".

Re: Concrete Aggregates & Construction Staking

The City of Manhattan has made two amendments to the City of Manhattan's Standard Construction Specifications, Amendments 7 and 8. Please replace Sub-Section 1.2.1.2 "Aggregates" in Amendment #2 revised on June 26, 2003, for the Streets and Parking Lots Section; and replace Sub-Section 6 "Construction Staking" within the General Information Section.

These amendments are a result of communications with contractors, suppliers, City staff, and industry professionals.

If you have any questions or comments, please do not hesitate to contact me at 785-587-2415.

Sincerely,

A handwritten signature in black ink that reads "Jeffrey Hancock".

Re: Approved US Pipe Hydrants

Dear Sirs,

City Administration has completed a substantial review of the US Pipe Metroflow/M-3 fire hydrants for a check of equivalency as compared to the standard Mueller hydrants and gate valves currently used on City projects. Please replace the appropriate sections of the Manhattan Standard Construction Specifications with the attached amendment. This amendment and its application on City of Manhattan projects should only apply to those projects, which have not yet bid.

If you have any questions or comments, please do not hesitate to contact me at 785-587-2415.

Sincerely,

A handwritten signature in cursive script that reads "Steve Hampton".
